lab::html syntax

Names: _____

Assignment ::
In groups of two, use the following HTML code and list every **Tag**, **Attribute** and **Value**. Your answers do not need to line up across table columns or be listed in a particular order.

```
<html>
    <head>
        <title>VC | Chemeketa Community College</title>
        <link href="/common/css/default.css" rel="stylesheet" type="text/css" />
        <meta name="description" content="Home page for Chemeketa VC Department">
    </head>
    <body>
        <div id="wrapper">
            <h1>Welcome to Chemeketa Community College VC Department</h1>
            <p><img src="images/logo.png" alt="CCC Logo" width="150" height="100"><br />
                We offer a wide range of graphic design and interactive media
                <a href="classes.html" style="text-decoration: none;">classes</a>...</p>
        </div>
    </body>
</html>
```
