Interface Design

Alternate Titles

- Web Design
- Web Design for Graphic Designers
- Web Mockups for Dummies
- Web Interface Design
- User Interface Design
- Interactive Design
- Layout 1: Web Design

“Web design is the creation of digital environments that facilitate and encourage human activity; reflect or adapt to individual voices and content; and change gracefully over time while always retaining their identity.

— *Jeffrey Zeldman, in Understanding Web Design*

Who even needs a
website in 2026?

AA

danmall.com

...

D "Does Web Design Matter?" an article by Dan Mall

Rosenfeld Media

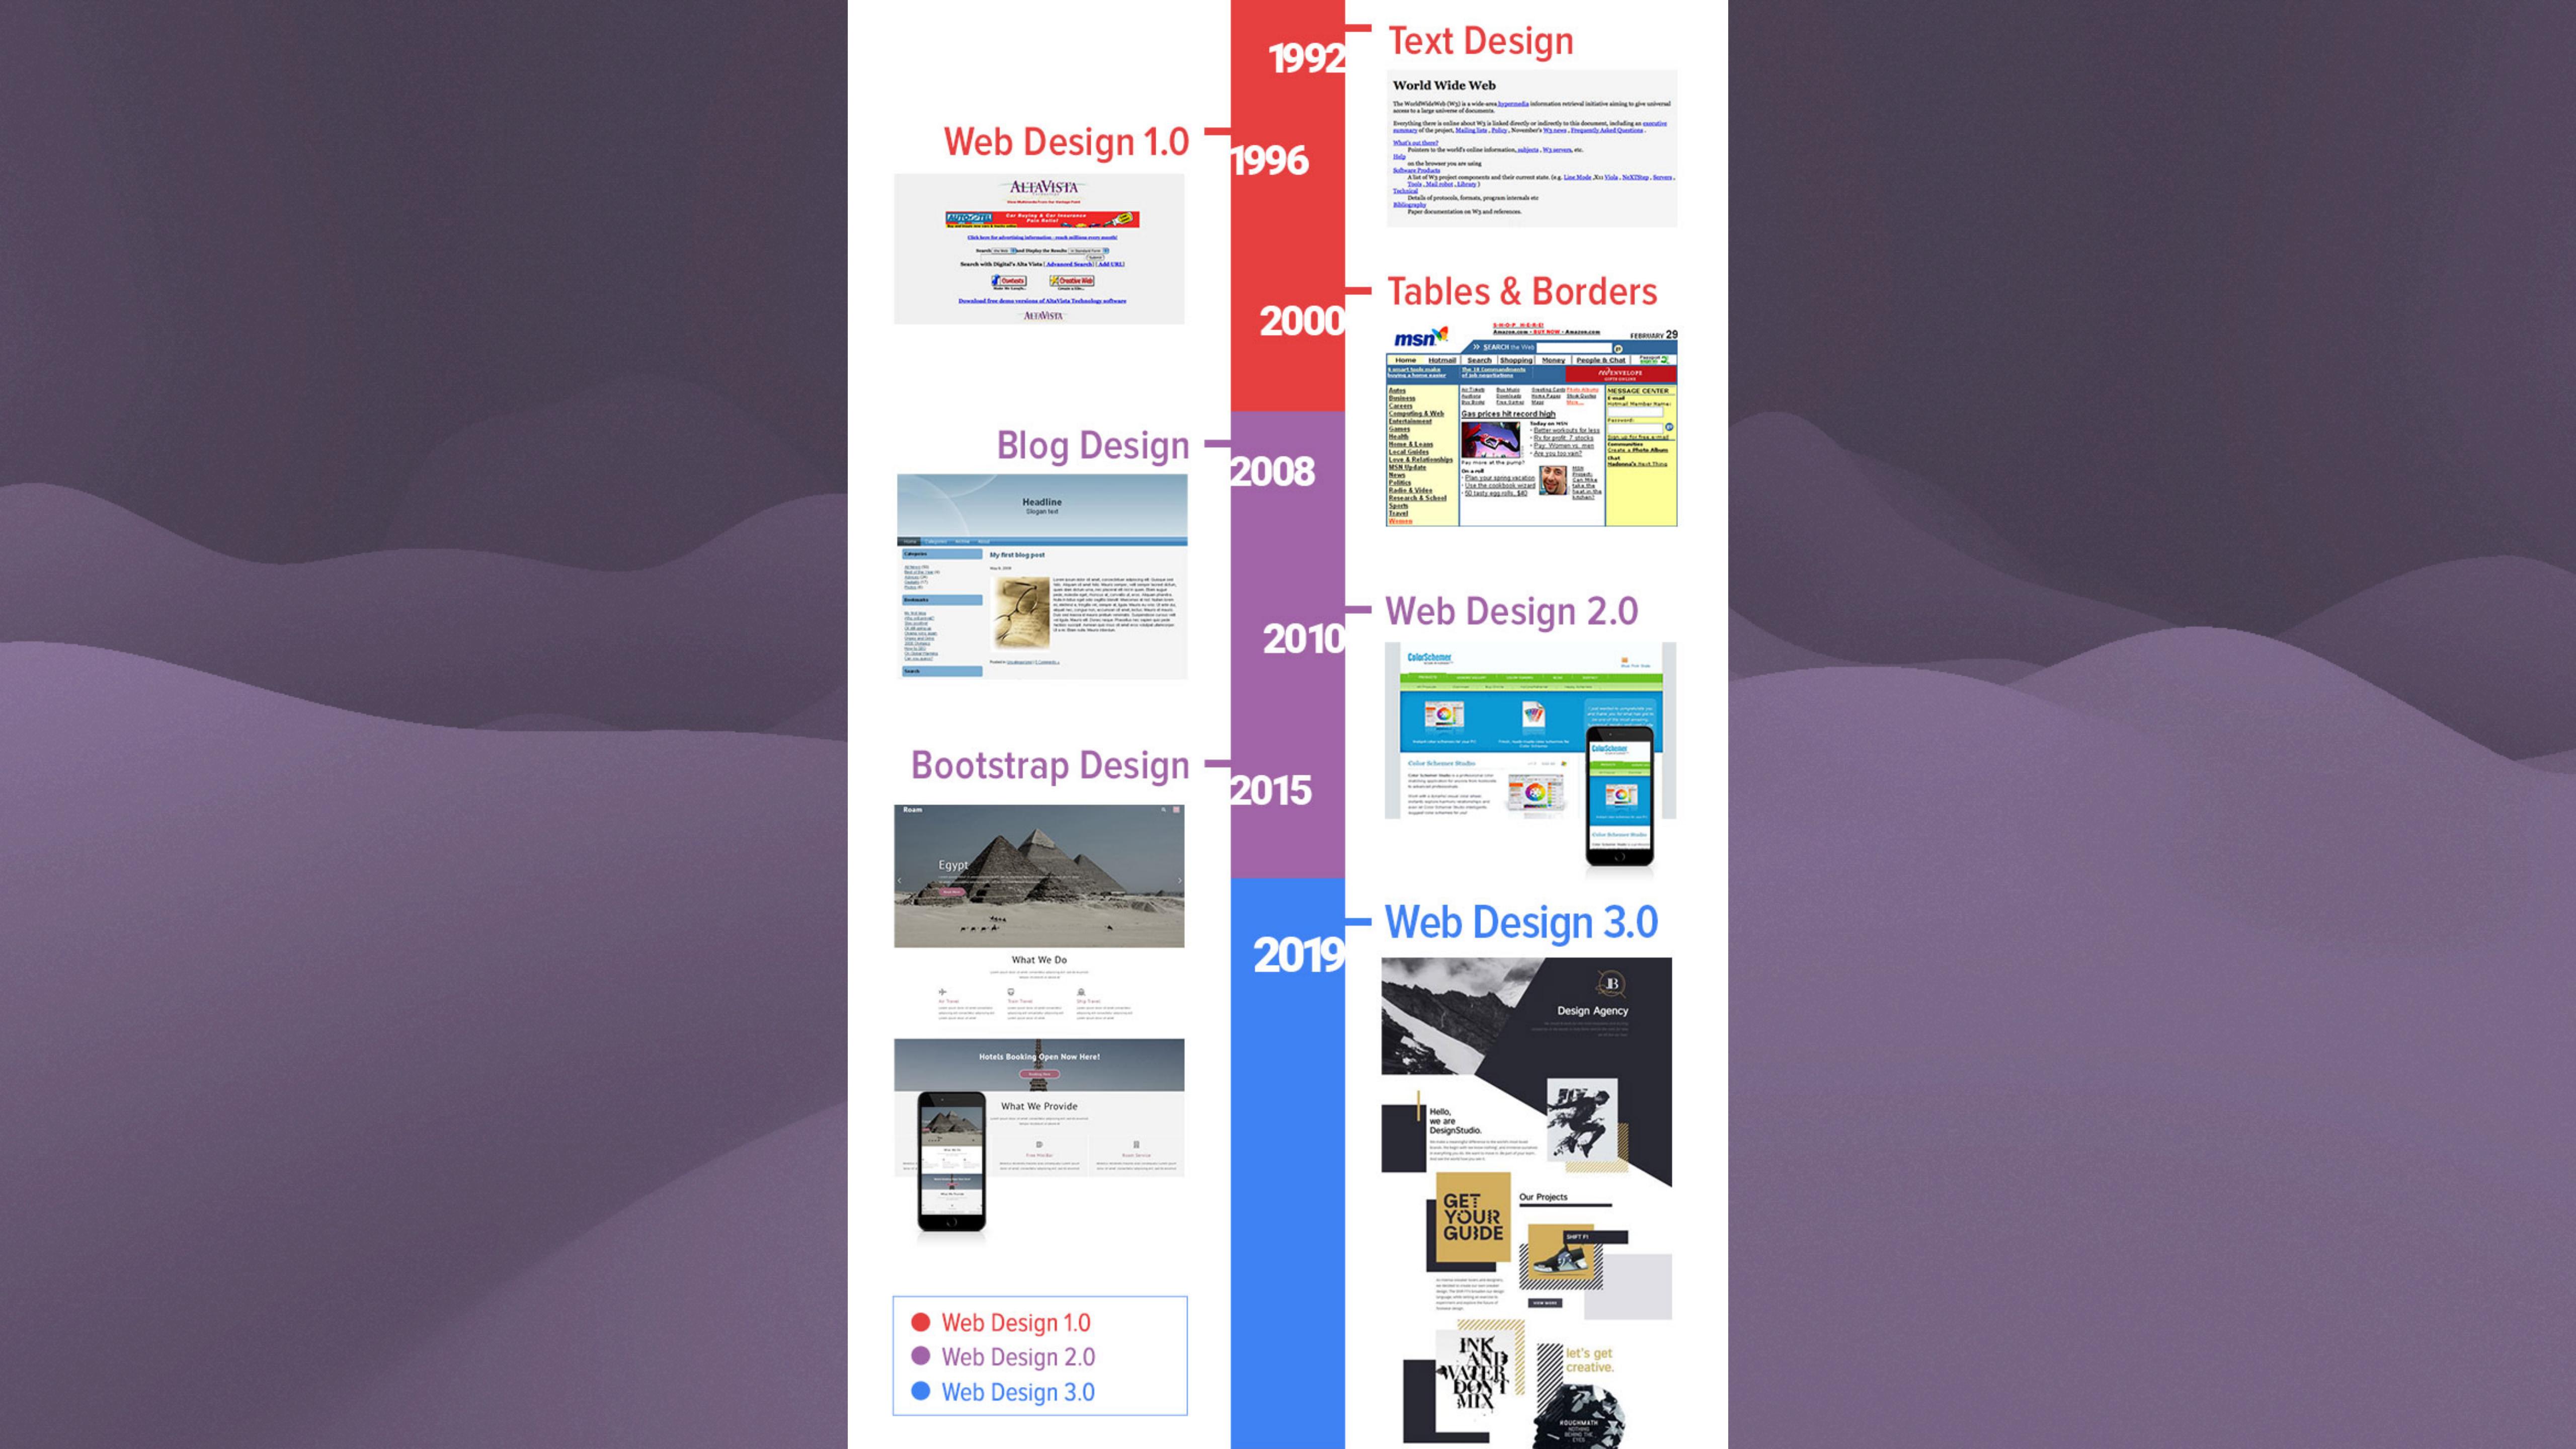

about, but most of my guests were full and happy.

We live in a world where a Kardashian or a YouTuber can launch a product or even an industry with a tweet or an Instagram post, a role previously dominated by The Website™. As other forms of media rise in popularity, what I've observed is websites being relegated to one of two purposes:

- 01 The website *is the business*, or a major part of it. Think e-commerce behemoths like Amazon and eBay, publishers like Dotdash Meredith and Buzzfeed, or social media companies like Facebook or Twitter.
- 02 The website as a glorified business card. Some people have square business cards, some spring for the gold foil and extra-thick card-stock, but they all do the same job in answering these two questions: are you legitimate and how can I contact you?

Is there a market for Michelin-starred web designers? I hope I'm wrong about this, but I think it's shrinking.

So why animate that header or spend time building a paper

About Tyrell

HTML HTML Preview :

Tyrell knows humans better than they know themselves

The Tyrell Corporation is a corporation from the 1982 Ridley Scott film Blade Runner. Based in Los Angeles in the year AF 19, Tyrell is named after its founder Eldon Tyrell and is a high-tech corporation primarily concerned with the production of androids. The corporation is headquartered in two large, pyramid-like structures that lie on the outskirts of Los Angeles. Elevators (technically inclinators, as they ascend at an angle) run along the outside of the massive structures, which both are at least 800 stories high.

“Most people make the mistake of thinking design is what it looks like. People think it's this veneer — that the designers are handed this box and told, ‘Make it look good!’ That's not what we think design is. It's not just what it looks like and feels like. Design is how it *works.*”

— *Steve Jobs, on Apple's interface design philosophy*

Friday & Saturday 10 a.m.- 5 p.m.
Closed: Sunday, Monday & Tuesday
Used Bikes Updated 12/05/23 ride@oregonbikeshop.com

Welcome to **OREGON BIKE SHOP** A mechanic owned bike shop in the heart of the **Montavilla** neighborhood, providing quality & fair bike repairs and sales of used bikes (Call/email for used stock.) to the community.

When you roll your bike into our shop for service, we will put your bike in a work stand, and inspect your bike together (more in tune up)

Rush service is available for everyone-- commuters, racers, BMXers, tourists and even strollers. Anyone *"out on the road"* with a flat, in most cases, are back on the road within a hour and sometimes sooner.

OREGON BIKE SHOP RACING TEAM

We have a diverse group of people on our racing/club team. From 9 years old to 60+ with everyone in between. Whether you're a Cat. 1 racer, masters rider, weekend warrior or 'lil shredder, you can join the team and bring the fun to riding and racing with a group of like minded people. Our main focus is Mountain Biking, Short Track racing, Cyclocross racing and a lot of gravel/road riding thrown in.

Events Include: *Cross Country Mountain Bike Nationals, Oregon XC Series. Short Track MTB on Monday nights at PIR. Road Racing - Wed. nights in July on Mt. Tabor. Cyclocross in the Fall with the Cyclocross Crusade series* [More about the team here.](#)

When You come in for a tune up, you can choose to meet with **Jimmy** (the mechanic) aka *"The Worlds Greatest Mechanic"* or drop off your bike. If You choose to meet Jimmy, he will put your bike in a workstand and inspect your bike with you and listen to your description of the problem(s), ask a few questions and after a visual inspection -if Your bike needs any additional parts -you will get an estimate on the spot. The **BASIC TUNE-UP** is \$95.00 which includes: Adjust gears and brakes, clean/relube drivetrain, true wheels, inspect for loose or worn parts, overall safety check and test ride. Inquire about Overhaul tune-ups (\$150.00) and PRO bike builds (\$250.00)

SERVICE

When you roll your bike into our shop for service, we will put your bike in a work stand, and inspect your bike together.

Rush service is available for everyone-- commuters, racers, BMXers, tourists and even strollers. Anyone "out on the road" with a flat, in most cases, are back on the road within a hour and sometimes sooner.

NEW & USED BIKES

Shop new, used, and refurbished bikes from the willamette valley area here at Oregon Bike Company

The mobile version of the Oregon Bike Shop website is displayed on a smartphone screen. The top of the screen shows the time as 9:41 and a battery icon. The website's header includes the "OREGON BIKE COMPANY" logo and a navigation menu with three horizontal bars. The main content area features a large image of a biker in a forest, with the text "OREGON BIKE SHOP" overlaid. Below this, a section titled "NEW & USED BIKES" is shown, featuring a sub-image of a biker on a path and a brief description: "Shop new, used, and refurbished bikes from the willamette valley area here at Oregon Bike Company". The page then transitions into a "OUR SERVICES" section, which is visually identical to the desktop version shown above. The services listed are "BASIC TUNE UP" (\$95-\$150), "OVERHAUL TUNE UP" (\$250), and "RUSH SERVICE" (\$100-\$150), each with a brief description and a small image of a biker.

STRIPE PRESS | POOR CHARLIE'S ALMANACK | FOREWORDS | 00.00% | ✎

Foreword by John B. Collison

CH. 0 // FOREWORD
DUBLIN, APRIL 2023

WRITTEN BY
JOHN B. COLLISON

I first came across *Poor Charlie's Almanack* in my 20s, when I was trying to learn everything I could about what made successful businesses tick. As I leafed through its oversize pages, I found it to be a refreshing rebuttal of conventional financial wisdom, delivered with unusual simplicity and candor. Never before had I heard a venerated businessperson express such trenchant insights about investing, finance, and the world more broadly, and with such—to use a favored Munger phrase—chutzpah. One can't help but read a line like "Without numerical fluency... you are like a one-legged man in an ass-kicking contest" and come away not only chuckling but also a little bit wiser.

Years after that first encounter with "Poor Charlie," I had the privilege of meeting Charlie at his home in Los Angeles. I was delighted to find that he is just as engaging and intellectually curious in person as he is on the page. (He also, I discovered, has considerably more stamina than I do—more than four hours into our dinner, I was ready for bed while Charlie showed no signs of flagging.) Our conversation that night was wide-ranging, touching on everything from the economics of ski resorts to raising children to the evolution of the news industry. Witnessing Charlie's prodigious intellectual breadth and multidisciplinary mode of reasoning firsthand only reinforced my admiration both for the man himself and for this book.

Poor Charlie's Almanack is a testament to the power of thinking across disciplines. It's not just a book about investing; it's a guide to learning how to think for yourself to understand the world around you. Charlie's philosophy combines insights from nearly every discipline in which he's ever taken even a passing interest—not only business and finance but also mathematics, physics, history, ethics, and more—delivered with a characteristic irreverence that has persisted for 99 years (and counting). His essays extol the virtues of free enterprise, yes, but also of doing business the right way, with integrity and rigor. Of taking your work very seriously, but never yourself.

Foreword by Warren E. Buffett
Rebuttal by Charles T. Munger
Introduction by Peter D. Kaufman
